

How to Sanitize

1. Put on disposable gloves and wear eye protection.
2. Fill a clean container with 1 gallon of water.
3. Mix 5 tablespoons of 6% unscented bleach with 1 gallon of water. (This makes a 1000 ppm sodium hypochlorite solution.)
4. Before using bleach solution, wipe off all surfaces. Use disposable towels to remove any vomit, stool, or other substances like food or grease.
5. Apply bleach solution to surface area and allow it to remain wet for 10 minutes. If possible, allow bleach solution to air dry.
6. Dispose of soiled paper towels and gloves in a plastic trash bag and place in garbage.
